Pine Cone	Cardinal	Pine Needle	Red Eft
			
Animal Tracks	Bird Nest	Eastern Bluebird	Acorn
			
Squirrel Nest	Tree Fungus (lichen)	Feather	Chickadee
			
Coltsfoot	Squirrel	Ash Beetle Tracks	Brown Leaf

## LAKE METROPARKS Scavenger Hunt

Any time is a great time to get outside and see some of the art and beauty of nature. Here's a scavenger hunt to complete every time you hike, bike and play in the parks.

- Find an evergreen cone. Can you identify what kind of tree it came from?
- Find and identify animal tracks in the snow. Try and follow them.
- Find some fresh green needles from a pine tree.
- Find an element that is purposely backwards.
- Find a bird's nest.
- Find a life size compass. Which way is Lake Erie?
- Find an acorn dropped from a tree. What animals eat these?
- Look for green fuzzy lichen fungus on a nearby tree.
- Find a squirrel. Is it a Fox Squirrel or Black Squirrel?
- Explore where most of our birds hangout back and find a feather.
- Find a cardinal.
- Find an emerald ash borer beetle track on a tree.
- Find a squirrel's nest made of leaves.
- Find a chickadee.
- Look for a brown leaf, why isn't green anymore?
- Find the green yurt.
